

Fluency

1 16 less than 8

2 20 minus 18

3 Decrease 20 by 10

4 17 fewer than 20

5 Difference between 5 and 9

Reasoning

9 Always, sometimes or never.

When you subtract one number from another number you can change the order and the answer will be the same

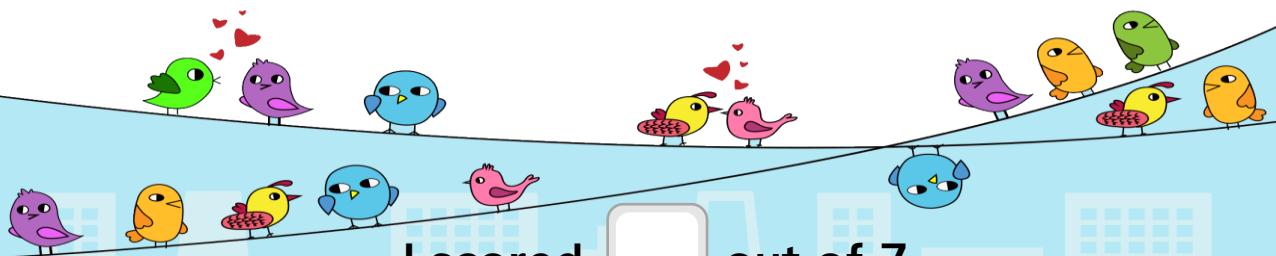

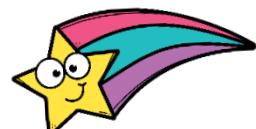

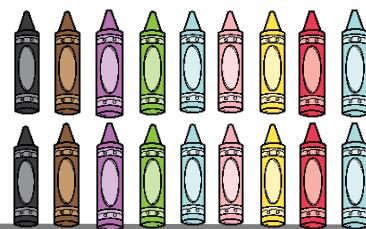

Word Problem

7 A unicorn had 20 balloons. Some of the balloons popped. She has 13 balloons left.
How many balloons popped?

8 Saba had 18 crayons.
Sam had 6 crayons.
Saba gave half of her crayons to Sam.

How many crayons does Sam have now?

I scored out of 7
