

Fluency

1 Write $<$, $>$ or $=$ to compare the amount.

Word Problem

2 Tom has ten 2 pence coins. He wants to buy a pencil that costs 12 pence. How many coins does he need pay?

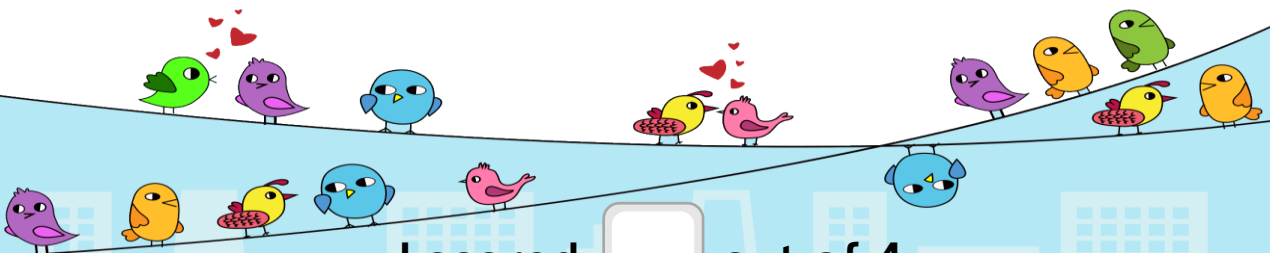

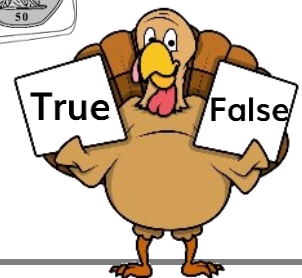

3 Amy has five 1 pound coins. Zara gave her two more 1 pound coins. How many pounds does Amy have now?

Reasoning

4 Sarah says that all the purses have equal money because they all have two coins in them.

True or false? Explain your answer.
