## Fluency

1 Match each jar to its amounts.
80p

21p

55p

£2

Word Problem

2 Make 20p in as many different ways as you can using these coins.

**3** Amy wants to buy an ice-cream. The ice-cream cost 10p. Which coins can Amy use to pay for the ice-cream?

Reasoning

4 Kinza says,

> The fairy gave me a coin that is bigger than 10p and smaller than 50p.

Which is the value of the coin? Convince me.
