

Fluency

Match the repeated addition to the matching array.

1

$10+10$

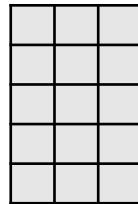

2

$5+5+5$

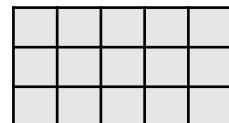

3

$3+3+3+3+3$

4

$2+2+2+2$

Word Problem

5

Zoe has 3 bouquets of 5 flowers.
Zain has same flowers as Zoe.

How many flowers does Zain have in total?

6

Bella has 10 pairs of trainers.
How many shoes has she got in total?

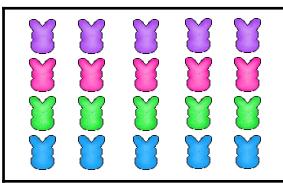

$$\boxed{} + \boxed{} = \boxed{}$$

$$\boxed{} \times \boxed{} = \boxed{}$$

Reasoning

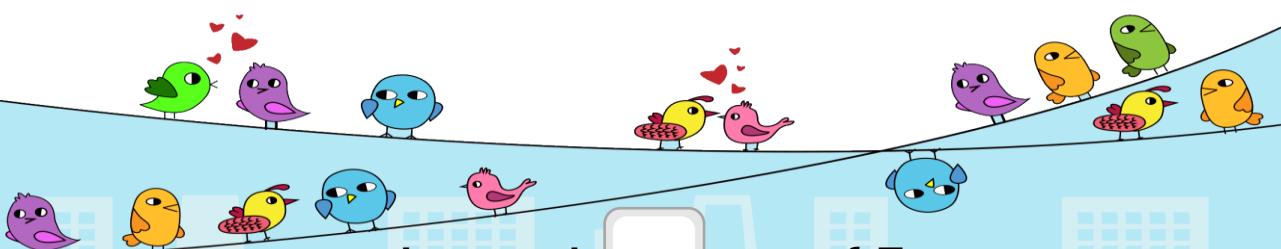

7 Which is the odd one out. Explain Why?

Four 5s

4 rows with 4 in each row.

$5 + 5 + 5 + 5 + 5$

I scored out of 7
