

## Fluency

- 1 How much money does each set have?

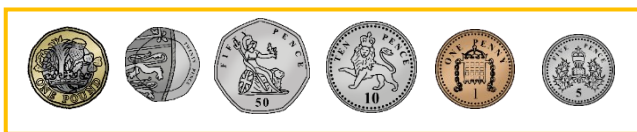

## Word Problem

- 2 Ben wants to buy a present for 20p. Circle one coin that he can use to buy the present.

- 3 Sara has these coins.

What is the total amount she has?

Which coin has the greatest value?

Which coin has the lowest value?

## Reasoning

- 4 Jane says that she has £5 in total.

Is Jane correct? Explain why.
