

Fluency

1 Complete the part-whole models:

2 Partition into tens and ones:

- a. $34 = \square + \square$
- b. $47 = \square + \square$
- c. $41 = \square + \square$
- d. $50 = \square + \square$

Word Problem

3 There are 43 books in the library. 40 are story books and the rest are fact books. How many fact books are there?

$$43 = \square + \square$$

There are fact books.

4 A box has 50 crayons. There are 5 rows of 10 crayons. Draw the 5 rows in the box below.

$$50 = \square + \square + \square + \square + \square$$

Reasoning

5 Different ways:

Write at least two different ways to show 32 using tens and ones. Explain how you know both ways still make the same number.

32
